Name: Dermatology Patient
Date of birth: 2/22/2018

Email photos to: [Derm2@phoenixchildrens.com](mailto:derm2@phoenixchildrens.com)

Subject line: Provider name and date of appointment

Body of the email: Name and date of birth of your child

Photos should be sent as a file attachment, not in the body of the email, as this is difficult to save and upload to our system

Here are some tips for taking the photos. It is important that we receive **clear** photos to properly evaluate your child.

DO:

- Send as many photos as you feel we should have to see your child's skin. We need several angles of the face and body.
- Get *uncomfortably* close to take the photos so we can see what you are seeing.

DON'T:

- Send blurry photos.
- Wear clothing blocking areas of the body we should see
- Take photos in dark rooms or have shadows obstructing parts of the body.
